# CAMERAS

## Sony a7 IV Mirrorless Camera

- 33MP BSI CMOS full-frame sensor
- Up to 10 fps shooting in lossy Raw with extensive buffer
- Full-width oversampled 4K from 7K, up to 30p
- 4K/60p (from 4.6K capture) in Super35 / APS-C mode
- 10-bit video or HEIF stills capture
- H.265 video, S-Cinetone color mode

## Sony Alpha a7S II Mirrorless Camera

- Internal UHD 4K30 & 1080p120 Recording
- S-Log3 Gamma and Display Assist Function
- 5-Axis SteadyShot INSIDE Stabilization
- 0.5" 2.36m-Dot XGA OLED Tru-Finder EVF
- 3.0" 1,228,800-Dot Tilting LCD Monitor
- Up to 5 fps Shooting and ISO 409600.

## Sony a7 III Mirrorless Camera

- 24MP Full-Frame Exmor R BSI CMOS Sensor
- BIONZ X Image Processor & Front-End LSI
- UHD 4K30p Video with HLG & S-Log3 Gammas
- 3.0" 922k-Dot Tilting Touchscreen LCD
- 5-Axis SteadyShot INSIDE Stabilization
- ISO 204800 and 10 fps Shooting.

## Nikon D800 Digital SLR Camera

## GoPro Hero 7 Black

## DJI Osmo Pocket

# LIGHTING

## Aputure Light Storm LS300X LED Light

The Light Storm LS300X LED Light Kit from Aputure is the first Aputure light to go beyond traditional bi-color lighting by utilizing the expanded vari-white CCT range of 6500-2700K, providing warmer tungsten tones and cooler than daylight whites. The brilliant light can be dimmed from a potent main light to a subtle, nuanced fill light, flicker free across the dimming range. The Controller Box attached to the LS300X head with a 9.8foot head extension cable, so adjusting settings is effortless regardless of where the light is set. The self-regulating, multi-voltage controller also operates using single or dual V-mount batteries, suitable for lighting in remote locations.

## Aputure Light Storm LS C120D II

The Light Storm LS C120D II Daylight LED Light from Aputure is a chip-on-board (COB) fixture with a 5500K color temperature. It consumes a negligible 180W of power while outputting 135,000 lux, equivalent to a 1000W hot light at a distance of 1.6' with an optional Fresnel. In addition to power efficiency, the fixture also features a high CRI/TLCI rating of 97/96, an indicator of precise rendering of color.

## Amaran 100x Bi-Color LED Light

The 100x Bi-Color LED Light from Amaran is a 100W light source with variable color from 2700 to 6500K and a CRI/TLCI rating of 96/95 to indicate advanced accuracy in color rendering. The light is dimmable from 0 to 100%, and while you can make these adjustments locally on the fixture, you can also make them via Bluetooth with your smartphone and a free app. The 100x has eight built-in customizable effects, an umbrella mount, and a Bowens reflector mount for access to Amaran light shapers as well as those from other manufacturers that use this popular mount.

# LIGHTING

## Amaran COB 60x Video Light

Using cutting-edge LED technology, the amaran COB 60d uses its 65W COB LED, with a max power draw of 76W, to output a staggering 45,100 lux at 1 meter with the specially designed Hyper Reflector Mini (15°). Inside its compact form factor lies the ability to compete with difficult lighting conditions to make your subject shine. It also features 0% to 100% dimming control to ensure that you can always find the right level of illumination for your scene.

## Amaran P60c RGB LED Light Panel

Flexibility and control are key to the design of the P60c RGB LED Light Panel from amaran. The sturdy-constructed fixture has three lighting modes. The CCT mode offers an expansive color temperature of 2500 to 7500K with an impressive CRI rating of 95 and plus/minus green control. The HSI mode allows you to adjust the hue, saturation, and intensity giving you access to literally millions of custom colors.

## Aputure MC - 4Light Travel Kit with Charging Case

The Aputure MC 4 Light Travel Kit with Charging Case includes four Aputure MC light fixtures, a charging case, and accessories. The MC light fixtures are part of the Aputure M-series of lights and feature RGB LEDs, as well as both tungsten- and daylight-balanced LEDs, creating a full hue-controllable LED light that emits up to 95% of the BT.2020 color gamut. The light integrates an OLED display screen and a control wheel.
