LIGHTING

Aputure STORM 1000c BLAIR-CG LED

Expanding Aputure's line of BLAIR-CG LED chipset lights, the STORM 1000c BLAIR-CG LED Monolight with Wide Reflector is a versatile point-source workhorse offering exceptional brightness while maintaining extremely high color accuracy. It pairs a powerful and innovative full-spectrum chipset with advanced white-point control, professional color accuracy, a secure ProLock accessory mount, and robust, IP65-rated construction for high-end set work under any circumstance.

Aputure INFINIMAT (2 x 4')

The INFINIMAT Tunable Color Light Mat with Inflatable Airbag from Aputure is a 2 x 4' modular, full-color RGBWW LED light mat that offers multiple mounting and rigging methods. It includes a 400W control box that can be powered via an optional V-mount battery or AC power and controls multiple INFINIMAT units. The light boasts a 2000 to 10,000K CCT, 96 CRI, and 97 TLCI.

Aputure MC Pro RGB LED Light Panel (Production 8-Light Kit)

Designed for filmmakers and creators in need of advanced control, the MC Pro Production 8-Light Kit from Aputure offers expanded connectivity options, an IP65 rating, and RGBWW capability, while providing eight lights in a sturdy charging case to cover your entire scene.

LIGHTING

Amaran 300C RGB LED Monolight

The 300c RGB LED Monolight from amaran is a variable color temperature light fixture ideal for filmmakers, photographers, and creators. You get modifiability for magnified or diffused output and full-color control throughout its expanded 2500 to 7500K CCT range. Featuring highly accurate color reproduction, the 300c also ensures high-quality light output with up to 26,580 lux at 3.3' using its included reflector.

Aputure Light Storm LS300X LED Light

The Light Storm LS300X LED Light Kit from Aputure is the first Aputure light to go beyond traditional bi-color lighting by utilizing the expanded vari-white CCT range of 6500-2700K, providing warmer tungsten tones and cooler than daylight whites. The brilliant light can be dimmed from a potent main light to a subtle, nuanced fill light, flicker free across the dimming range. The Controller Box attached to the LS300X head with a 9.8foot head extension cable, so adjusting settings is effortless regardless of where the light is set.

Amaran 100x Bi-Color LED Light

The 100x Bi-Color LED Light from Amaran is a 100W light source with variable color from 2700 to 6500K and a CRI/TLCI rating of 96/95 to indicate advanced accuracy in color rendering. The light is dimmable from 0 to %100, and while you can make these adjustments locally on the fixture, you can also make them via Bluetooth with your smartphone and a free app. The 100x has eight built-in customizable effects, an umbrella mount, and a Bowens reflector mount for access to Amaran light shapers as well as those from other manufacturers that use this popular mount.

LIGHTING

Amaran COB 60x Video Light

Using cutting-edge LED technology, the amaran COB 60d uses its 65W COB LED, with a max power draw of 76W, to output a staggering 45,100 lux at 1 meter with the specially designed Hyper Reflector Mini (15°). Inside its compact form lies the ability to compete with difficult lighting conditions to make your subject shine. It also features %0 to %100 dimming control to ensure that you can always find the right level of illumination for your scene.

Amaran P60c RGB LED Light Panel

Flexibility and control are key to the design of the P60c RGB LED Light Panel from amaran. The sturdy-constructed fixture has three lighting modes. The CCT mode offers an expansive color temperature of 2500 to 7500K with an impressive CRI rating of 95 and plus/minus green control. The HSI mode allows you to adjust the hue, saturation, and intensity giving you access to literally millions of custom colors.

Aputure MC - 4Light Travel Kit with Charging Case

The Aputure MC 4 Light Travel Kit with Charging Case includes four Aputure MC light fixtures, a charging case, and accessories. The MC light fixtures are part of the Aputure M-series of lights and feature RGB LEDs, as well as both tungsten- and daylight-balanced LEDs, creating a full hue-controllable LED light that emits up to %95 of the BT.2020 color gamut. The light integrates an OLED display screen and a control wheel.
